

Underhill Precision Cool Pro Nozzle with Brass High Flow Control Valve and 3/4in MHT x 1in FHT Adapter

RGHN0600CV

Details

A hot summer day can be murder on your greens. Use too much water and you risk damage to the roots. CoolPro is the first nozzle specifically designed for the single purpose of lightly misting the turf canopy to cool without over watering. The 25 foot fogging pattern gets the job done quickly. Perfect for tournament play, CoolPro puts down only enough water to cool the turf canopy. It prevents wilting while maintaining good ball speed. CoolPro is a great tool for protecting grass on hot days without damaging roots. 70PSI @ 4-6 GPM Black Perfect for tournament play, CoolPro puts down only enough water to cool the turf canopy. It prevents wilting while maintaining good ball speed. CoolPro is a great tool for protecting grass on hot days without damaging roots. A hose nozzle made specifically with a "fogging" nozzle for cooling golf green canopies or wetting seedlings in a growing application. Tough, rugged and reliable. Nozzle includes a brass control valve plus a 3/4in MHT and a 1in FHT adapter. Black.

- Ideal for: Greens, tees, seed beds, transplants and delicate landscaping
- Ergonomic handle/valve provides easy grip and variable on/off control
- Durable solid metal design, zinc, aircraft aluminum and stainless steel
- CoolPro Nozzle Kit includes brass high flow control valve and 3/4in MHT and 1in FHT adapter
- Fogs at 70 PSI 4-6 GPM to deliver a 25ft pattern
- Black
