

Kochek Standard Pellet Applicator w/Shower Head Nozzle

RG900BWP-S

Details

The applicator works the same as the Deluxe Applicator, but with value in mind. The Standard Applicator is designed with a Flat Spray Nozzle and Thumb Valve Shutoff to apply pelletized materials to turf ornamentals. Designed to use the same nylon impact resistant container that easily twists on with the O-ring seal keeping the applicator water-tight and precise. Available with Flat Spray Nozzle or Shower Head Nozzle. Adapters for 1" NPSH or 3/4" GHT hose included.
