

Rain Bird Rotary Nozzle - 13-18' Radius Full Pattern

RGA84545

Details

Greater distribution uniformity keeps your landscape green without overwatering. Thick wind-resistant streams and large water droplets resist prevailing winds and maximize water landing in the target zone. Low 0.6"/hr precipitation reduces or eliminates run-off on slopes and hard clay soils with 35% less run time than the leading competitor. Matched precipitation rates enable large and small turf areas to be zoned together by mixing R-Series rotary nozzles, R-VAN, and 5000. Series rotors with the MPR nozzle set. Three-year trade warranty
