

J-B Weld Water Pump & Thermostat Housing, .05 oz. RJB32507

Details

Specially designed RTV Silicone gasketing material for use in mechanical assemblies. Curing occurs with exposure to moisture in the air, forming a tough, waterproof, petroleum and weather resistant gasket and seal on most surfaces. Grey in color, will not shrink or crack. Sensor safe and has good temperature resistance up to 500 degrees. .05 oz. Made in U.S.A.

- Great for Oil Pans, Valve Covers, Transmission Pans, Timing Gear Covers
- Will Not Shrink or Crack
- Sensor Safe
- Temperature Resistance Up to 500 Degrees
- .05 oz. (14 g)
- Cure Color: Black
- Made in U.S.A.
