

Great Horned Owl w/Rotating Head

RP2014

Details

Startle birds and other pests with this lifelike natural predator. His head bobs, turns and swivels even in a gentle breeze while his intense, huge golden eyes stare and flash in the sun. Birds believe they are being followed and avoid the area. Hand painted for maximum realism and effectiveness. Fill with sand or gravel for greatest stability. Place on fence post, around water features, garden areas, or anywhere you have a bird problem. 18" tall.

- Startles prey animals
- Head bobs, turns and swivels
- Eyes flash in the sun
- Hand painted
