

Victor Mole Trap

RP2877

Details

Take control of your garden or lawn with this Victor Mole Trap. It effectively kills moles without the use of poisons or harsh chemicals, and its weather-resistant spears on the plunger-style trap body lets you use it repeatedly wherever moles happen to pop up in your yard. The safety pin ensures secure operation, and it comes fully assembled and ready to use.

Weather-resistant spears remain below ground when the trap is set, ensuring the sharp points stay away from children and pets. The plunger-style design effectively eliminates moles in their tunnels to help restore your garden to its former condition.

- Plunger-style trap effectively eliminates moles in their tunnels
- Safety pin ensures safe operation and prevents false triggers
- Weather-resistant design allows for repeated use
- Comes fully assembled and ready to use
- Spears are located below ground, away from children and pets
